PharmLabs San Diego Certificate of Analysis

3421 Hancock St, Second Floor, San Diego, CA 92110 | License: C8-0000098-LIC ISO/IEC 17025:2017 Certification L17-427-1 | Accreditation #85368

Sample Flying Monkey/Blue Dream

Sample ID SD230222-068 (67767)		Matrix Flower (Inhalable Cannabis Good)
Tested for FLYING MONKEY,LLC		
Sampled -	Received Jan 21 2024	Reported Feb 28, 2023
Analyses system CANV MWA		

Laboratory note: The estimated concentration of the unknown peak in the sample is 2.74% | Currently PharmLabs laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated D8 products) from which we believe to be either (+)48-THC or 49-THC or 49-THC at this time there are no reference standards available for (+)48-THC, (+)48-THC is a different compound from the main (-)48-THC cannobinoid and, therefore, these two compounds may have different efficacies. Using the most advanced instruments and techniques available, the separation of (+)48-THC and d9-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (+)d8-THC with the majority, if not all, of the concentration being (+)d8-THC. Total (+/-)
